Sahabat-AI

The First Large Language Model
In Bahasa Indonesia
Developed by Indonesians,
Personalized to Drive
Your Digital Transformation needs.

Welcome to the Sahabat-AI

Sahabat-AI is the first large language model (LLM) in Bahasa Indonesia developed by Indonesians, designed to elevate local languages and promote linguistic diversity. A collaborative innovation by Indosat and GoTo, Sahabat-AI stands as a testament to Indonesia's commitment to AI sovereignty, representing the nation's top talent in bridging the digital divide and enhancing communication.

This project aims to empower nations and communities by enabling communication that is faster, easier, and more inclusive. Sahabat-AI functions as a shared platform, offering personalized services tailored to meet the needs of business customers. It empowers Indonesians to conduct seamless business-to-government (B2G) and business-to-business (B2B) interactions, enhancing government services and helping businesses unlock AI-driven solutions specific to their goals.

Utilizing Foundational AI capabilities, Sahabat-AI strives to reduce the digital divide, simplifying the understanding and preservation of languages, and driving improvements across industries, benefiting both everyday life and the business landscape.

Use Cases

UNIQUE IDENTIFICATION ID   TAXATION   NAME AND ADDRESS CHANGE   DIRA

The Indonesian identity card, known as Kartu Tanda Penduduk (KTP), is a crucial document for Indonesian citizens. It serves as official proof of identity, similar to an ID card in many other countries. The KTP contains essential personal information about the cardholder, including their full name, date and place of birth, gender, address, and a unique identification number.

Frequently asked questions about KTP:

- Application Process: Questions about how to apply for a KTP, required documents, and eligibility criteria.
- Renewal and Replacement: Queries regarding the renewal process for an expiring KTP or the procedure for replacing a lost or damaged card.
- Change of Information: Inquiries about updating personal information on the KTP, such as changes in address or marital status
- Validity and Expiration: Questions about the validity period of the KTP and the consequences of using an expired card.
